Name Samuel Svensson
Birthday July 10, 1995
Nationality Swedish
Languages Swedish, English, (Spanish)

ABOUT ME

I'm a 23 year old Master of Science student that has a passion for creative programming and smart solutions. I've mostly been doing web-development in Javascript but I am always open for opportunities to learn something new. One of my greatest ambitions is to work with 3D-computer graphics and image processing combined with challenging programming assignments!
